## Q8 - Additional comments and suggestions for future workshops/educator programs:

Additional comments and suggestions for future workshops/educator programs:

Amazing workshop! Great speaker! I was very pleased and learned a lot!

More hands on art-making linked to culturally diverse art and history. Behavior management /classroom organization ideas. Language programs (Haitian Creole/French)

I enjoyed the workshop very much and thought Ms.Hinson was very informative and approachable. I thought that the idea that students grow and become enjoyed when one integrates their curriculum. Nice job!

Great Work

Very happy with this workshop

Loved the P.D

Visuals, Posters, power points, postcards, and websites

This was an excellent topic and educational seminar

This was a great workshop

More art in history teaching! Enjoyed this focus

Fantastic!

Latin America - Portuguese and Spanish

Thank you. It was very interesting and inspiring to bring back to class.

Great workshops and network opportunity - interdisciplinary - art/history/language arts

It would have been nice to keep the book to show AP's rather than providing them with a list
